

The Commission on Aging (COA), in its ongoing efforts to ensure the needs of the New Hartford Seniors (any resident over 55 years of age) are met, is on a fact finding mission.

We ask you to complete the following questionnaire to begin to identify the gaps in services to the seniors.

This questionnaire focuses on health care. Others will follow addressing different issues.

Please e-mail the completed questionnaire back to Jean at the Senior Center or leave a hard copy for her next time you're in the Center. **seniors@town.new-hartford.ct.us**

The COA thanks you in advance for your participation. The more Seniors we hear from, the better the information.

Where is your:
